Automobilia Ladenburg – Marcel Seidel Auctions

Auction on November 28–29, 2025

Spectacular Motorcycle Collection to Be Auctioned

Over 200 lots of historic racing motorcycles, spare parts, and memorabilia

Motorsport enthusiasts can look forward to an extraordinary highlight: one of the most fascinating private motorcycle collections, comprising more than 200 lots, will be offered at auction. In addition to rare spare parts and unique memorabilia, the sale includes numerous historic racing motorcycles that have made motorsport history.

Among the outstanding exhibits are:

- A **1951 Mondial 125 cc Bialbero** – a milestone of Italian engineering,
- A **1962 Mondial 200 cc prototype**,
- A rare **Moto Guzzi “Gambalonghino”** from around 1949,
- And a **1956 CM racing motorcycle**, which was ridden by world champion Nello Pagani, among others.

Many of these machines are not only technical masterpieces but also witnesses to an era when motorsport pioneers shaped the racetracks of Europe. Original spare parts, accessories, and memorabilia complete the collection, making it equally attractive for collectors, museums, and enthusiasts.

“This collection unites authentic witnesses of motorcycle racing history, rarely found in such diversity. Each machine tells a story – of innovation, speed, and legendary riders,” explains Marcel Seidel, auctioneer and owner of Marcel Seidel Auctions.

The auction provides the opportunity to acquire extraordinary vehicles and original pieces of motorsport history, many with prominent provenance.

Auction Details
